ABOUT

Computer Science undergraduate student studying at Queen Mary University of London.

My professional aim is to become an expert in the field of Artificial Intelligence (AI). In order to achieve this, I plan to complete my bachelor's degree in Computer Sciences with specialization in AI and then augment my qualification with Master's degree. I believe this will equip me with necessary theoretical knowledge thereby enabling me to add value in my chosen field

Aspiring AI Specialist

EXPERIENCE

Vodafone (Jan 2020 -) 🔴

Brand ambassador – Working alongside Vodafone to promote their 'Think Big, Then Bigger' Campaign". Currently have amassed over 100+ sign-ups in two

Queen Mary University of London (Sept 2020 -) 👑

**Demonstrator** – Helping student in Procedural Programming (Java) and Web (HTML)

HackTheMidlands (Oct 2020) 🔵

Participant – Took part in a four-day hackathon in which we were given several challenges to choose from. The one me and my team decided to work on was
